EDUCATION

- **North Maharashtra University** — Jalgaon, Maharashtra, India
  Bachelor of Science, CGPA: 9.7 — *Aug 2018 - July 2021*

SKILLS

- **Programming Languages**: JavaScript
- **Frontend Development**: HTML, CSS, SCSS, React.js, Redux, TailWind CSS, AntDesign
- **Backend Development**: Node.js, Express.js, MongoDB, SQL
- **Others**: Data Structures and Algorithms, Bootstrap, Firebase, Git, VS Code, Jira Board

EXPERIENCE

- **Frontend Developer** — Hyderabad
  GenbaNext Pvt Ltd. (Full-time) — *Aug 2024 - Present*
  - **Live React Applications**: Working on live React applications using **Ant Design** for UI components and **SCSS** for styling.
  - **Responsiveness Bug Fixes**: Fixing **responsiveness bugs** to ensure optimal display across devices and browsers.
  - **State Management with Redux**: Utilizing **Redux** for state management in various projects.
  - **Project Contributions**: Contributing to projects like **AIRNext**, **RefNext**, and **MatNext** with a focus on UI/UX and data integration.
  - **Collaboration with Backend Teams**: Collaborating with backend teams to ensure **seamless data flow** and real-time updates.

- **Associate Member of Technical Staff (AMTS-I)** — Hyderabad
  Gaian Solutions India Pvt. Ltd. (Full-Time) — *Nov 2023 - June 2024*
  - **HearHere Mobile Application**: Developed a highly responsive React website, achieving a 30% improvement in page load speed through optimized load times; implemented multiple carousels with engaging animations, integrated maps, and language translation, while integrating Firebase OTP authentication and JWT verification to reduce unauthorized access attempts by 50% and enhance user data security.
    Tech: React.js, Firebase, Framer Motion, JWT, i18next Lang translation, Mapbox
  - **Aegis (First Responder Application)**: Developed reusable React components optimized for both mobile and desktop platforms, incorporating language translation features, while implementing 2D and 3D maps with navigation capabilities, dynamic data integration, and tracking functionalities for first responders to enhance operational efficiency and safety measures. Built UI elements to manage maps, incidents, and logs flow effectively.
    Tech: React.js, Framer Motion, i18next Lang translation, Mapbox
  - **Data Architecture and Modeling**: Collaborated on the creation of database schemas, developed data flow diagrams, and designed UML diagrams to visualize system architecture and improve data management processes.

- **Web Developer Intern** — Remote
  InternPe (Intern) — *Sep 2023 - Oct 2023*
  - **Application Development**: Gained expertise in full-stack technologies through hands-on projects.
  - **Project Execution**: Developed interactive applications including a calculator, Connect Four game, to-do app, personal portfolio, and Tic Tac Toe game.

PROJECTS

- **Teerex Store**: Developed a fully responsive user interface, integrated API data fetching, and implemented filter and search functionalities, along with an "add to cart" feature, enhancing user experience and interactivity.
  Tech: React.js, Context API, React Redux, CSS

- **Real Estate App**: Implemented an e-commerce website featuring user registration, login, and property management functionalities, along with integrating Cloudinary for efficient media handling.
  Tech: React.js, JWT, Node.js, Express.js, MongoDB, Bootstrap

APPRENTICESHIP / TRAINING

- **Full Stack Developer Bootcamp** — Feb 2023 - Jul 2023
  Intensive six-month full-time program focused on DSA and Full Stack technologies.
